KICKSTART YOUR CAREER: A 4-YEAR GUIDE

This 4-year plan breaks down what to focus on each year to build experience, stay on track, and be career-ready by graduation. We look forward to meeting with you and supporting you along the way!

YEAR 1: LEARN & EXPLORE	• Activate Handshake and explore the job board, Career Center events, and resources. • Join clubs or organizations related to your interests. • Attend Stevens Career Center workshops to create your resume, cover letter, and LinkedIn profile. • Research your intended major and internship/career options. • Meet with a Career Coach to discuss your future goals and steps to meet them. • Attend on-campus employer events and information sessions hosted by the Stevens Career Center. • Start building your network with classmates, upperclassmen, faculty, and staff. • Participate in job shadowing and externship opportunities as related to your interests. • If interested in Co-op and in an eligible major: Attend Co-op Interest Event and enroll in COOP 100 in the spring (only offered in Spring of your 1st year at Stevens).
YEAR 2: PLAN & BUILD	• Update your resume and meet with a Career Coach to review your professional profile. • Attend Job Search Strategy and Interviewing Skills workshops hosted by the Stevens Career Center. • Conduct industry and company research related to your major to create a target list. • Schedule coffee chats and informational interviews with industry professionals. • Start applying to internships or research opportunities and create a backup plan for your summer. • Develop technical and soft skills through projects, research, or extracurricular activities. • Apply for leadership positions in clubs and organizations. • Stay connected with faculty and industry professionals through LinkedIn as you build your network.
YEAR 3: FOCUS & APPLY	• Meet with a Career Coach early in the Fall semester to set a strategy for the Fall recruitment season. • Update and tailor your resume and cover letter regularly to highlight relevant qualifications for your targeted roles. • Update your LinkedIn profile with your project experiences, leadership roles, or any additional relevant experiences. • Schedule mock interviews with the Career Center along with regular appointments for the best guidance and support. • Apply actively to internships or research opportunities and create a backup plan to build your skillset during your summer. • Track your applications by using the Stevens Career Center Job Application Tracker on Handshake. • Discuss with a Career Coach the best practices for accepting internship/job offers. • Attend Stevens Career Expo and employer events to build your professional network. • Strengthen your network by staying active on LinkedIn and following up with connections made at networking events.
YEAR 4: EXECUTE JOB SEARCH	• Meet with a Career Coach early in the Fall semester to review your updated resume and practice interviewing skills. • Set up job alert notifications on Handshake and LinkedIn. • Set a goal to apply to 10-15 applications a week and establish a schedule to stay consistent. • Track your applications by using the Stevens Career Center Job Application Tracker and follow up with contacts. • Check deadlines and apply for relevant positions early and often. • If continuing education, manage deadlines and important tasks to complete for graduate school applications. • Attend Stevens Career Expo, employer events, networking nights, and alumni panels to continue building your network. • Continue to update and tailor your resume and cover letter to highlight relevant qualifications for roles. • Actively network and let contacts know you're job searching. • Apply, Apply, Apply! • Fill out the Stevens First Destination Survey to let us know your post-graduation plans!
